D. The most valuable part of the class was:

- Collaborative attitude and advice for tech
- Sharing
- Talking with other teachers
- Time to work and brainstorm
- Web Tools
- The information and ideas that come from everyone
- Photostory training
- Photo Story 3 Also, watch someone using a I Pad
- Photo Story and Book Trailer Presentations
- Photo story 3
- Photo Story
- Learning about Photo Story 3--we went slow enough for me to understand and feel that I can start using right away. I liked the flip camera--have to think of how to use it

E. What suggestions would you provide for future training?

- Everything is fine. Sometimes things go too fast and I get lost. If I'm trying to follow along on my computer then I miss what is going on the projector screen, so sometimes I just need to watch what they are doing and make notes and then plan on trying it out later.
- Not sure
- Have facilitators come at 8 to check on internet and wireless.
- This group has been very useful to my teaching
- I Pad
- Being able to get on to the internet faster and to keep connection.
