

NORTHWEST AREA SCHOOLS

**Session Assessment
November 3, 2010**

A. Project Goals & Expectations

	Strongly Agree	Agree	Somewhat Agree	Disagree	Strongly Disagree
1. The Technology Bootcamp project goals and expectations were clearly explained.	28.6%	52.4%	14.3%	4.8%	0.0%
2. The class outcomes were clearly identified and explained.	33.3%	47.6%	19.1%	0.0%	0.0%
3. I believe I can begin implementing information and/or strategies from this professional development in the classroom.	42.9%	47.6%	9.5%	0.0%	0.0%
4. I began implementing information from the Technology Bootcamp in the classroom.	47.6%	47.6%	4.8%	0.0%	0.0%

B. Workshop Goals & Expectations

	Strongly Agree	Agree	Somewhat Agree	Disagree	Strongly Disagree
1. I have increased my understanding of Achievement Series.	9.5%	33.3%	38.1%	14.3%	4.8%
2. I have increased my understanding of Book Trailers with Photo Story 3.	33.3%	61.9%	4.8%	0.0%	0.0%
3. I have increased my knowledge of 21 st Century Skills.	23.8%	61.9%	9.5%	4.8%	0.0%
4. I have an increased ability to utilize new Web 2.0 project planning tools demonstrated in this training.	38.1%	57.1%	4.8%	0.0%	0.0%
5. I have a greater appreciation for technology integration.	47.6%	42.9%	9.5%	0.0%	0.0%
6. I understand how technology can improve student achievement in my classroom.	42.9%	52.4%	4.8%	0.0%	0.0%

C. Activities Design

	Strongly Agree	Agree	Somewhat Agree	Disagree	Strongly Disagree
1. The design of the activities were consistent with the goals and expectations for the day.	38.1%	61.9%	0.0%	0.0%	0.0%
2. The activities effectively built upon my prior knowledge and skills.	23.8%	76.2%	0.0%	0.0%	0.0%
3. The design of the activities encouraged a collaborative approach to learning.	23.8%	71.4%	4.8%	0.0%	0.0%
4. Adequate time was provided for reflection and sharing of concepts, issues, and experiences.	33.3%	66.7%	0.0%	0.0%	0.0%

	Strongly Agree	Agree	Somewhat Agree	Disagree	Strongly Disagree
5. Adequate time was provided for exploring and using the demonstrated web tools.	14.3%	66.7%	4.8%	14.3%	0.0%
6. The physical arrangement of the meeting area contributed to a successful class.	9.5%	66.7%	19.1%	4.8%	0.0%

D. The most valuable part of the class was:

- I really like being shown the new information then having a bit of time to "get my feet wet"! The collaboration with other teachers is grrrrreat!
- The knowledge of resources provided.
- Collaboration with other teachers.
- Time to work and talk together. I also enjoy sitting at a table with other elementary teachers.
- Being introduced to some new tools to try out.
- Collaboration
- Seeing the process for getting video through the process from flipcam to Animoto. PhotoStory 3 also looks like a very useful tool.
- Talking with other teacher about pros and cons in their classrooms with technology
- Talking with peers
- Time to practice with the tools introduced.
- Teaming with other teachers.
- Learning more about the Achievement Series.
- Using Photostory3
- I liked that there was more planning time available and that we were introduced to some new tools.
- Seeing the book trailers and how they could be used in a lesson
- Handouts and a much more relaxed pace
- Learning how to use Photo Story 3 - looking forward to using this in my classroom. There were lots of things today that I plan to use in the future.
- The tools used were easy to use and fun to learn about.
- Hands on collaboration
- Web tools presented can be implemented tomorrow. Networking with teachers; ESA staff well versed in web tools that were presented and they provided excellent examples. Excellent pacing!

E. What suggestions would you provide for future training?

- More time to experiment with new programs shown during class!
- Check list or rubric of expectations to guide planning and implementation of projects.
- More hands-on time; better this time
- Thanks for the handouts. Continue to bring them because they are helpful. Time to talk together again next time would be great.
- Picture editing
- Maybe come up with some good project ideas that people could borrow from if they do not have anything pinned down yet.
- More handouts
- I would like to see a little more work time. I would like to be able to experiment more with the information they give us during class
- More time to practice and collaborate.
- None. The seating would be better if we were in a circle, but I do not think we can fix it.
- Time to share with individuals or small groups.
- We need to know more about what is expected from our project!
- I think a little more information on the final project would help.
- Let us collaborate with same grade same subject cohort members. I need to hear from those who teach my grade level and subject areas.

- I am still unclear about the project expectations. How long does the presentation need to be? Does it need to be a lesson we have already done or can it be a lesson we will do next year? Just need more details!
- Maybe even more time or working on the tools provided to us.
- Keep up the great work on our behalf!
